

## What drives Thunderplus 22 kW AC Charge

Rating	22 kW
No of Output / Connector	1
Output Supply	AC
Output Voltage max	420V - 450 V Max
Input Supply	3 Phase 360 - 480 Volt , 3 wire system L-N-E
Charging Mode	Mode 3
Connector Type	Type 2 Tethered
Maximum Cord length meter	Type 2 Tethered - 5 Mtrs
Each vehicle Maximum Input Power	22 kW
Installation Type	Wall / Stand (Indoor /Outdoor)
App-based monitoring and tracking	GSM / Wifi
Efficiency	Greater than 99%
Input Supply Power Factor Greater	Greater than 0.98
Ingress protection	IP55
Impact Resistance Protection	IK 10
Communication	OCPP 1.6 J
Compatible to Charge	Car, Bus, Truck
Protection	Over Voltage, Under Voltage, Over Current, Over Temperature, Under Temperature, Short Circuit, Residual Current, Earth Fault, Hardware Fault

### EASY INSTALLATION. GREAT FEATURES.

Highly economical

Compact and easy installation

Free installation and maintenance

Suits all weather conditions

App-based monitoring and tracking

On-call customer support
